Asters

Good plantsmen always think fondly of the grand horticultural family that the Asters are. But, do we, in our familiarity, consider each season ALL that they can do for us? Or, do we react passively as we would nod to an old friend?

Gather these thoughts, then let your imagination work with them a bit. **THE COLORS** — the brightest whites, pinks, reds, blues. **THE FLOWERING PERIODS** — from May to November. **THE HEIGHTS** — low, medium and tall. **CHARACTERISTICS** — foliated the deepest, decorative green, bloom and bloom and bloom, grow generously in any soil, any location, completely hardy.

Can you think of a better cut flower family for the catch-cash crops? Can the Asters be missing from any well-planned border planting? Will they pay as prompt merchandisers out of pots, beds, baskets, etc.? Answers: **NO - NO - YES!**

This is a top list of the newest forms; the plants that you receive will be fully developed field grown, no stripping, dug and shipped fresh from the rows.

FULLY DEVELOPED FIELD GROWN PLANTS ONLY

There are NO seedlings, NO finely cut divisions. The listings and pricings consider only plants at exhibition grade. NOT too young, NOT too fine to survive the rigors of shipping and transplanting; NOT so old that they have spent their major productivity here where it is wasted for your purposes.

They are plants at the practical standard, grown to the traditional understanding of perennial plant qualifications.

There is quality in the assortment of varieties, too. Good judgment is never allowed to yield to current intensive promotional interest. Every plant in this list, new or old, holds a solid position in horticulture, must be practical and profitable turnover items.

There are times when it may be desirable to order less than 5 plants of one kind for your trial. We are glad to cooperate. Please add 7 cents per plant to the ten rate to share the cost of the custom handling outside the wholesale aggregating.

HARDY HEALTHY EARLY BEAUTIFUL

MARTIN Mums

THEY'VE GOT TO BE GOOD!

We found them, and judging them severely, determined them to be great varieties. But that was our judgment. Now, look at the recognition, the approval that they have earned from others. They are hailed "major Chrysanthemum Achievement" by a multitude of tradesmen. Astute garden and professional periodical writers acclaim them. The thorough and non-prejudicial trials of public institutions, societies, and clubs award them highest ratings. Each one is an individual, duplicating no other of which we know or have been told. In our nursery, they stand regularly among more than 300 varieties, and they easily and proudly hold their place. Your retail customers can have them only through YOU, and the publicity will have them asking for them. Plant them generously!

CANDY Delicious and desirable, a treat to the most discriminating taste for the grand Chrysanthemum family. A mound of flowers cascading from a full crest and right to the ground in solid mass. Eighteen inches tall, three feet through in the first year. Color is a prominent, full pink with a sugar-sheen (see the name?) and individually average more than two inches. The blend is to just enough salmon and gold in the center to spotlight each blossom. It's a beautiful display item, and each stem straight and true makes it a profitable cut flower.

Heavy Field Grown, Per 10 \$3.50; Per 100, \$30.00
Pot Plants, Per 10, \$2.25; Per 100, \$18.00

DRAGON LADY A new mum-color too — a satin smooth Chinese Red, more striking than Caliph, deeper than Red Velvet. Starting mid-September, it bloomed continuously for six weeks and didn't fade a shade. Mature flowers develop spoon tips. Foliage is an outstanding deep green, almost black, extra large, bright as waxed leather. It is a decorative growing bush, and a red mass in bloom.

Heavy Field Grown Per 10, \$3.50; Per 100, \$30.00
Pot Plants, Per 10, \$2.25; Per 100, \$18.00

JAYEFF Flowers are huge, 4 inches and more in true diameter, fully double, no centers. The color is a deep, positive pink with a dazzling, drifting sheen. No other color or flowers form like it. Bushy plant bears straight stems by the dozens, no pinching. Grows to 2 ft., vigorous and healthy, bushy. Flowers appear here from the 15th of September and bear without fading until severe frost.

Heavy Field Grown Per 10, \$3.50; Per 100, \$30.00
Pot Plants, Per 10, \$2.25; Per 100, \$18.00

MISS LACE Pert and saucy, this is the glamour of the new group. True Grandmothers light pink, a bursting shower of fully double, 3 inch blooms sweeping en-masse atop stately upright stems rising in quantity 2½ ft. in perfect symmetry. Excellent cut-flowers, blooms first week in September, and the fresh pink flowers do not fade for weeks.

Heavy Field Grown Per 10, \$3.50; Per 100, \$30.00
Pot Plants, Per 10, \$2.25; Per 100, \$18.00

NANKEEN A medium tall golden cushion. Only the growth characteristics bring it into the cushion classification. The flowers are completely different from any appearing on the cushion varieties. They are fully double, tightly knit, and exhibit no center even in their late stages. The color is that of polished gold, and, in the direct sun it is flushed with a shimmering sheen that makes a group planting a lively dynamic scene.

Heavy Field Grown Per 10, \$3.50; Per 100, \$30.00
Pot Plants, Per 10, \$2.25; Per 100, \$18.00

SALUTE A perfect deep purple, the memorial tribute shade, dedicated to our memories. Soft and fluffy, yet so double the petals seem to be woven into a tight knit to accommodate them all. It is small, extremely bushy, growing to 12 inches and is completely covered with mellow, deeply satisfying blooms so profuse that the foliage is completely hidden. Blooms first week in September and continues for weeks without fading. It's wonderful, born only for the purpose it so clearly serves.

Heavy Field Grown Per 10, \$3.50; Per 100, \$30.00
Pot Plants, Per 10, \$2.25; Per 100, \$18.00

CONTRAST A distinct departure. In the field, despite the literally endless array of varieties around them, plants of Contrast were marked different everywhere they were shown. It grows with a character quite different than anything that we are accustomed to. Instead of the conventional mound formed by semi-low growing types, a bowl-like effect is achieved, a flat mass across the top and a cascade of bloom to the ground. The duplex flowers are a harmonious contrast with every soft rose petal tipped yellow.

Heavy Field Grown, Per 10, \$3.50; Per 100, \$30.00
Pot Plants, Per 10, \$2.25; Per 100, \$18.00

FORTY-NINER Was there a prospector's pick at Comstock that ever uncovered the richness of the pure gold that you will see? The bonanza bursts into bloom early in September, a shower of the cleanest yellow gold flowers, and they stay fast and in full bloom well into frost. Each flower is fully double with an incurve. They are uniform in sprays at the top of straight eighteen inch stems. For cutting, they're perfect.

Heavy Field Grown Per 10, \$3.50; Per 100, \$30.00
Pot Plants, Per 10, \$2.25; Per 100, \$18.00

MARTIN'S WHITE This is the first introduction in the proud series that bears our name. Wherever it has been seen, it is approved and re-produced in volume. It is the purest, cleanest white known. Flowers are huge, fully double, measuring five inches, and are perfectly formed from the inner swirl to the outer petals. Grows to 18", blooms shortly after the 1st of September.

Heavy Field Grown Per 10, \$3.50; Per 100, \$30.00
Pot Plants, Per 10, \$2.25; Per 100, \$18.00

NABOB A rich, exotic soft purple with a metallic sheen that brings it to the "plastique" shades used so effectively in modern decoration. There is absolutely no hint of magenta either in the prime bloom or the fading flower. It grows medium tall and the deep, lush, forest green foliage, growing to the ground, is a complimentary frame for the abundance of very rich flowers.

Heavy Field Grown Per 10, \$3.50; Per 100, \$30.00
Pot Plants, Per 10, \$2.25; Per 100, \$18.00

REDCOAT As hardy as the men it pays tribute and as brilliant as the uniforms they wear. A strong sturdy grower resisting with casual abandon the culprits that take their toll from others less sturdy. Flowers are a really new red in Chrysanthemums. Vermilion is the closest comparison. Fully double, they appear on strong yet succulent stems growing medium high.

Heavy Field Grown Per 10, \$3.50; Per 100, \$30.00
Pot Plants, Per 10, \$2.25; Per 100, \$18.00

SPARKLE Early, bright, beautiful, long lasting. It is a low, perfect cushion form without any tendency to sprawl. Flowers golden yellow speckled bronze and bright red, each petal tipped silver. Fully double, pompon in form, it is so loaded with bloom from the first of September on that the foliage is not visible. Brand new, rarely did one of the hundreds of nurserymen who visited our display block leave without placing an order for Sparkle!

U. S. TOP LIST . . . 194 VARIETIES

Hardy Chrysanthemums

To tradesmen exclusively, this is the most complete presentation from a single specialist source.

The modern list of Hardy Chrysanthemums is a lengthy, complex subject. Your source must have your confidence. Here is how we solicit yours.

Each year, we plant 300 plus varieties and see many more. This catalog listing is the well rounded, all purpose balance selected from them all.

The field grown plant that you will receive, or the one that was used for the pot plant stock, was flowered and carefully rogued. They are plants that held their flowers, did not drop their leaves, and have NO sign of stunt.

Whether you sell from field display, from beds, from pots, or use the tremendous cut-flower yield, the best varieties for your purpose are here. If we can help with your selection, we will welcome the opportunity.

NOTE: May we suggest the field grown plants as the best buy? We ship them fresh from the field, and remove not a single division. The unit cost in your planting thus runs from a fraction of a cent to not more than 3c.

POT PLANTS — Per 10, \$2.00; Per 100, \$15.00

AUTUMN BREATH. A striking oddity. It is a firm duplex, rigidly showing a burnt cinnamon-bright yellow bi-color in symmetrical focus. It compares with the straw flower.
